

## Information by the Department of Motor Vehicles Rottweil for establishment of residence in Germany and the ownership of vehicles with foreign registration

**We want to emphasize that vehicles with foreign registration, after establishment of residence in Germany, have to be registered in Germany.** It is assumed that the **regular location of the vehicle in Germany is with reason.** The „regular location“ is where the majority of trips with the vehicle start and end.

Even if the Vehicle Tax in Germany has been paid 1 year in advance, the obligation to register the vehicle in Germany is not lifted.

**Only during temporary stay in Germany, up to 1 year after crossing the border, is it allowed to drive the vehicle with the valid, foreign registration document** (Regulations regarding this and possibly translations according to § 20 Vehicle-Registration Ordinance (“Fahrzeug-Zulassungsverordnung”) are to be noted). **This only applies if no regular location of the vehicle in Germany is justified.**
